Celebration Cakes

All of Heather's cakes are individually made and designed, taking your budget into account.

The first thing we must point out, is that the earlier you start your cake consultation with Heather, (around 2 months before your collection date), the better, especially if your dream cake has lots of intricate floral detail.

Please remember, in addition to this size and price guide, **Terms and Conditions** apply to all orders. These can be found on the website or you can ask Heather to send you a copy.

2 Things you need to know

There are two key decisions that need to be considered when ordering your celebration cake:

- How many people would you like to have a piece of your cake?
- How much budget do you wish to allocate to this centre-piece of your celebration?

Celebration cakes can also be delicious and beautiful with the minimum of decoration. These cakes are known as 'naked' cakes, or 'semi-naked'.

Naked or Semi-naked Celebration Cakes

These cakes consist of even layers of sponge filled with a choice of fillings and simple decoration. This will all be explained during the consultation process.

Depth of Cakes

As a rough guide, the depth of sponge of a single tier celebration cakes is approximately 5".

Collection and Transportation

A date and time will be agreed for you to collect your celebration cake. Your cake will be handed over to you in a bakery style white card box with lid. Here is Heather's advice:

- The box must be carried underneath, not by the sides.
- Prepare a stable, accessible flat surface in the boot or footwell of your car for the cake.
- DO NOT transport the cake on a car seat or on someone's knee.

*Please refer to the **Terms and Conditions** for safe storage and display.*
